

WITH THE PROFESSIONAL CONSULTING AND THE IMPLEMENTATION OF AT4 SHELL^{PLUS}

EXCELLENCE IN SPARE PARTS MANAGEMENT

Client: Italian

Industrial Sector: Metal

Revenue: 1 - 1,2 MLD EUR

For over 70 years the Company has been producing steel, distributed to customers all over the world.

Numbers:

- 4 production sites in Europe
- 150,000 assets
- 40,000 spare parts
- 15 months of project development, currently in continuous support

Solutions used:

- **Spare parts classification and warehouse management consulting**
- AT4S2 SaaS maintenance management platform (**AT4 SHELL^{PLUS}**)

Systems integrations:

- AT4 SHELL^{PLUS}
- AS400 (ERP system)
- Factory Automation System
- Microsoft Active Directory

Client's Objectives and Challenges:

- Correct value of **warehouse stock**
- **Technical classification** of spare parts
- **Stockability indices** for critical materials
- **Rotation Index** for single material/class of materials
- **Maximum, minimum and average procurement time** for single material across different suppliers
- **Management of supplier lists**

Achieved results:

- **17% decrease in inventory value**
- **12% reduction** in the **annual cost of spare parts** thanks to standardization
- **2.3% reduction in plant downtime** due to lack of spare parts
- **Increased reliability of work planning** thanks to the booking of materials
- **95% of strategic suppliers evaluated on compliance with delivery times**

“ AT4S2 helped us reorganize the total management of spare parts in stock. Thanks to technical classification methodologies and management systems, we now have total mastery of warehouse efficiency. ”
